FINAL REJECTION

1. Claims 67-92 are presented for examination.
2. The text of those applicable section of Title 35, U.S. Code not included in this action can be found in the prior Office Action.
3. The rejections are respectfully maintained and reproduced infra for applicant's convenience.
4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to

Art Unit: 2115

be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 67-92 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 6, 11, 16, 26, 33, 34, 42, 49, 52, and 59-60 of U.S. Patent No. 6,691,214 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because in view of the "obviousness-type" double patenting rationale enunciated in *Georgia Pacific Corp v United States Gypsum Co.*, 52 USPQ2d 1590, U.S. Court of Appeals Federal Circuit 199, application claims 67-92 merely define an obvious variation of the invention claimed in US patent 6,691,214 B1.

After analyzing the language of the claims, it is clear that claim 67, 73, 79, and 86 of the application is merely a subset of claim 1, 16, 33, and 49, respectively of the '214 B1 patent, and is an obvious variation of claim 1 of the '214 B1 patent. The method, system, device, and processor of claim 67 of the instant application is a SUBSET of the method, system, device and processor of claims 1, 16, 33, and 49, respectively of the '214 B1 patent.

6. Applicant's arguments filed on 3/28/06, which have been fully considered but they are not persuasive.

Art Unit: 2115

7. In the remarks, applicants argued in substance that Li (U.S. Patent No. 6,691,214 B1) does not disclose this limitation, such as “positioning a clock transition of a clock signal at one edge of a data eye”.

8. As to this point, Li discloses the limitation “positioning a clock transition of a clock signal at one edge of a data eye” in claim 1 of U.S. patent No. 6,691,214 B1 [see col. 9, lines 26-30].

9. **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
